

2019-20 LEAGUES

September 3 - April 30 (Playoffs start early April)

League play offers the advantage of regularly scheduled matches against players of similar ability. Staff organize players by level, prepare schedules, reserve court times and maintain standings.

NEW THIS SEASON

LEAGUE FEE - Covers the cost of league preparation, development, rosters and schedules, mailings and weekly update of league match results. A player needs to pay this fee only once this season and can participate as a regular player in more than one league during the season. This year we'll be working to enter your league scores into the UTR system.

WHAT IS UTR? - You may have heard about UTR, short for Universal Tennis Rating, the world's premier global rating system that is taking the tennis world by storm. A player's UTR is a dynamic rating that can go up or down over time based on a player's performance. It is not age or gender specific and does not count matches won or lost. It is purely based on who you play and how many games you win relative to the other player's rating. The UTR algorithm does the rest.

WHY UTR? - By reporting match scores to UTR, ICT is working to assure closer match ups between players of similar ability.

PLAYER RATINGS

Staff determine a player's rating from the following criteria (self-ratings are not accepted)

- Previous ICT league participation
- Current (within 2 years) computer-generated USTA rating
- Current (within 2 years) computer-generated UTR rating
- ICT rating clinics for NEW players without a current rating

NOTE In order to register you will need a valid rating within the last two years. If you don't have a current rating, please register for a new player rating clinic.
