**PLAYER LEVELS (FROM NATIONAL TENNIS RATING PROGRAM)**

**2.5** - Learning to judge where the ball is going but court coverage is weak. Can sustain a short rally of slow pace with other players of the same ability.

**3.0** - Fairly consistent when hitting medium-paced shots, but is not comfortable with all strokes and lacks execution when trying for directional control, depth or power. Most common doubles formation is one-up and one-back.

**3.5** - Has achieved improved stroke dependability with directional control on moderate shots, but still lacks depth and variety. Starting to exhibit more aggressive net play, has improved court coverage and is developing teamwork in doubles.

**4.0** - Has dependable strokes, including directional control and depth on both forehand and back-hand sides on moderate shots, plus the ability to use lobs, overheads, approach shots and volleys with some success. Occasionally forces errors when serving and teamwork in doubles is evident. Rallies may be lost due to impatience.

**4.5** - Starting to master the use of power and spins and beginning to handle pace, has sound footwork, can control depth of shots and is beginning to vary game plan according to opponents. Can hit first serves with power and accuracy and place the second serve. Tends to overhit on difficult shots. Aggressive net play is common in doubles.
